

ETHICAL ZOO CHALLENGE

Introduction:

How can we design spaces to be more ethical and better consider animal wellbeing? How can we ensure that animals are loving and adjusting their new habitats? Animals have feelings, the same as us humans; they feel pain, love, loneliness. How can we help them and learn from them?

Challenge:

What is your favourite animal? What do they enjoy doing? Where are they from and what is their natural habitat? What can they be missing from home? Can you design an ethical, fun, environment for them? What would a lion or penguin miss and love to do?

Objective:

Design and create a prototype of a healthy, happy, zoo environment for your favourite animal.

Tools:

Pencils, paper, cardboard, tape, scissors, recyclables, other items you have in your house.

Prep:

After you sketch out your idea on paper, find some clean and dry recyclables to create your prototype. Have an adult help when you need.

SHARE!

When you finish your project. Take a screenshot or video and share it with us [#MakerFun](#)

#MakerFun DAILY CHALLENGE

Join us every week day at 10am AST for a new **Make-At-Home** activity & 1pm AST for an **Outdoor activity** or a **Digital Learning** skill while schools are closed.
