

## EDUC-ART CHALLENGE

### Introduction:

Do you think kids around the world all have the same access to quality education? By having an inclusive system and quality education, people can break the cycle of poverty, reduce learning gaps, live healthier lives, and become lifelong learners. How could you demonstrate, in a 3d artwork showing perspective of your choice, what free, equitable and quality education would look like?

### Challenge:

Create a vanishing point artwork showing scenes of quality education, here or around the world.

### Objective:

Make an artwork of their choice that illustrates different scenes of quality education.

### You will learn:

You will learn to communicate your comprehension of what is quality education through a vanishing point art piece.

### Tools:

Paper, paint, paintbrushes, pens, pencils, markers, scissors, glue, tape, cardboard, anything else that you would need to create an artwork of your choice.

**SHARE!**

When you finish your project. Take a screenshot or video and share it with us [#MakerFun](#)

# #MakerFun DAILY CHALLENGE

Join us every week day at 10am AST for a new **Make-At-Home** activity & 1pm AST for an **Outdoor activity** or a **Digital Learning** skill while schools are closed.
