

HOMEMADE CHALK RECIPE

Don't have chalk at home? No problem! This recipe will allow you to make chalk at home with materials you already have!

INGREDIENTS

- ☐ 1 tbsp egg shells
- ☐ 1-1.5 tsp hot water
- ☐ 1 tsp flour
- ☐ food coloring
- ☐ mixing bowl
- ☐ spoon
- ☐ paper towel

DIRECTIONS

1. First **wash and dry** your eggshells so there is no egg on them.
2. **Crush** your eggshells into a fine powder (do this on a surface that is removable, such as paper, so you can funnel the excess powder into your measuring spoon easily).
3. In a bowl **combine** your flour and water so it makes a paste.
4. Now **add** in your crushed eggshell powder. It should form a thick paste.
