

CREATING YOU AND CO. CHALLENGE

Introduction:

Imagine you had a logo for a company that represented your individuality and helped out in your community. What would be your purpose? How can colors affect our message or image? We are often attracted to different colors. The colors of the rainbow, the tints of the colors (pale vs dark), the monochromatic (one color), the primary colors (blue-red-yellow) and the secondary colors (orange-green-purple) attract us all in different ways. What colors would you choose to represent you?

Challenge:

Research the significations of colors and their impact.

Objective:

Design a logo that represents your individuality using a color wheel.

Tools:

Paper, crayons/markers, ruler

Prep:

Start with a clean workspace
